

## To get to Monksville Reservoir NORTH BOAT LAUNCH:

### From Bergen County

- Route 208 North to 287 South.
- From 287 South, take Exit 57 (Skyline Drive). The exit ramp is 0.3 miles long. Turn right up the hill, towards Ringwood.
- Follow Skyline Drive (also known as County Route 692). (You will be on this road for 4.9 miles).
- At ~4.8 miles on Skyline Drive, pass through a traffic light, and drive to the next stop sign.
- Turn right onto Greenwood Lake Turnpike (also known as County Route 511). Drive on County Route 511 for 4.4 miles.
- At 4.4 miles, turn left at the North Boat Launch in Long Pond Ironworks State Park.

### Some things to note:

- As you drive on Greenwood Lake Turnpike/County Route 511, you will see Wanaque Reservoir on the left, and you will eventually pass Monksville Dam.
- Along the way, you may see signs for the South Boat Launch, but our group operates from the North Boat Launch.
- When you are going north on Greenwood Lake Turnpike, the turn into the North Boat Launch is a left turn. If you were instead to turn right at this point, you would be on Beech Road.
